ALUMINIUM FACADE SYSTEM

ASTHAM
INDUSTRIES PVT LTD

**Shaping Strength. Defining
Excellence in Aluminium.**

India's Premier Aluminium Extrusion Supplier

We manufacture a wide range of systems and being a premier aluminium supplier, can supply custom made aluminium profile (specially expertise in large sections width upto 150mm) to meet your needs in different industries such as construction, architecture, Industrial and engineering products.

Complete Aluminium Solutions

From concept to completion, we deliver comprehensive aluminium solutions tailored to demanding applications. Our expertise spans precision extrusion, fabrication, finishing, machining, and value-added services, bringing every stage under one roof. With reliability at our core and flexibility in our approach, we respond to evolving requirements with precision, consistency, and professionalism—delivering solutions that add genuine value to every project.

Reliability You Can Rely On

Reliability is at the heart of our approach. From precise extrusion and stringent quality control to dependable delivery and responsive service, we maintain consistency at every stage. Our commitment to accuracy, transparency, and long-term partnerships enables us to deliver aluminium solutions with confidence—ensuring every profile meets exacting requirements and performs reliably, time after time.

Flexibility Without Compromise

Every project brings its own requirements, and our approach is designed to accommodate them with ease. From bespoke profiles and tailored specifications to adaptable production and value-added solutions, we work closely with our customers to find the right way forward. This flexibility allows us to respond to changing needs while maintaining the precision, quality, and performance expected from every aluminium solution.

About Us

We are a leading aluminium extrusion company in India, delivering precision-engineered profiles and complete aluminium solutions for a diverse range of industries and applications. Our approach combines technical expertise, advanced manufacturing, meticulous quality control, and a genuine understanding of our customers' requirements.

From standard profiles to complex bespoke extrusions, we work alongside our customers to transform ideas and specifications into carefully engineered solutions. Our capabilities extend beyond extrusion to include machining, fabrication, finishing, and value-added services, providing a streamlined journey from initial concept to finished component.

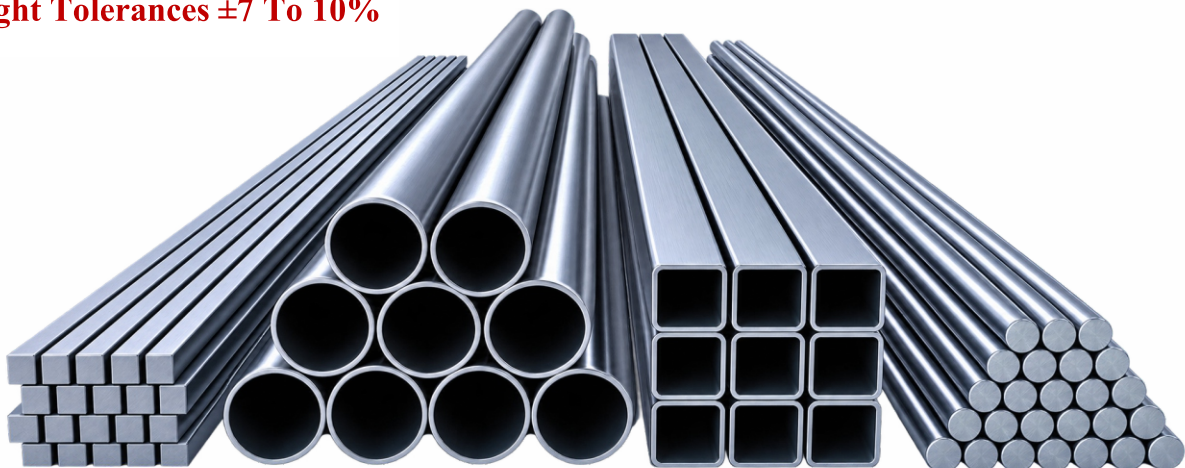

What distinguishes us is our commitment to precision, reliability, and flexibility. We understand that no two requirements are the same, and we remain adaptable in our approach without compromising on quality or performance. Every profile is produced with careful attention to detail, consistency, and the standards expected of a trusted manufacturing partner.

We are continually investing in technology, people, processes, and expertise to refine what we do and raise the standard of aluminium extrusion. For us, excellence is not simply about producing aluminium—it is about creating solutions that perform, endure, and add meaningful value to our customers' businesses.

Precision in every profile. Confidence in every partnership. Excellence in every solution.

This image shows a full page of blank handwriting practice paper. It features multiple sets of horizontal blue lines, each set consisting of three lines (top, middle, and bottom) to guide letter height. The lines are evenly spaced across the entire page, providing a template for practicing cursive or other handwriting styles. There is no text or other markings on the paper.

This image shows a full page of blank handwriting practice paper. It features multiple sets of horizontal blue lines spaced evenly down the page. Each set consists of three lines: a solid top line, a dashed middle line, and a solid bottom line, providing a guide for letter height and placement. The background is white, and there are no margins or other markings on the page.
